He pagado por un asiento en concreto. ¿Cómo funciona?

Sergey Shevchenko - 2021-10-23 - Special assistance

Your seat assignment request if you have done one, is send to the airline via our internal reservation system. We transmit to them your preferences: aisle or window. The airline than assign seats accordingly to your request. You can't choose your seat number nor do a row selection. Skytours does not guarantee this - this is only a request service
